

Workflow Validators

JSU for Jira Cloud

This is the documentation of JSU for Jira Cloud. If you are using JSU on Jira Server or on Jira Data Center, you can find the documentation [here](#).

Initially these features were provided by JSU but now on Jira Cloud they are maintained by Atlassian. The following workflow validators are available:

- Date Compare Validator
- Fields Required Validator
- Regular Expression Check Validator
- Date Window Validator
- Parent Status Validator

For information on workflow validators in Jira, see the [Jira Documentation](#).

Our JSU on Jira Server/Data Center documentation about [Workflow Validators](#) will you also give some hints, how to configure them on Jira Cloud.
